### ALL INDICTED.

Pembroke Negroes Charged With Murder and Conspiracy.

Trial of the Accused Set for Today and Will Probably Consume Two Weeks.

The special grand jury impaneled for the purpose of investigating the murder of the unknown white man near Pembroke, returned an indictment Wednesday morning against all nine of the negroes in jail charged with the crime. The indictment charges them with willful murder committed in manner and form as follows:

That said George Holland, Ed Holland, Frank Meriwether, Frank Massie, Dick Sherman, Ed Moseley, William Garrott, Charles Finch and Dick Carney did in this county and state, aforesaid, on the 20th day of November, 1903, and before the finding of this indictment unlawfully, wilfully, maliciously and with malice aforethought, kill, slay and murder a white man, to this grand jury unknown, and in pursuance of said conspiracy the said Frank Meriwether, George Holland and Frank Sherman did then and there unlawfully, wilfully, feloniously and with malice aforethought kill and murder the said unknown white man in the following manner:

That the said Frank Meriwether struck, beat and wounded him, with an ax handle bludgeon or other deadly weapon; that the said George Holland and Frank Sherman cut, stabbed and wounded him with knives or other sharp instruments or weapons, from which said striking, beating, cutting, and wounding he, the said unknown white man, did then and there presently die. That Dick Carney, Frank Massie, William Garrott, Chas. Finch, Ed Moseley and Ed Holland were then and there personally present and did then and there unlawfully, wilfully and feloniously and with malice aforethought, aid, abet, counsel, advise and encourage the said Meriwether, George Holland and Sherman to kill and murder the said unknown white man as aforesaid and which said killing was done in pursuance of the conspiracy aforesaid. That the said unknown white man, was killed and murdered as aforesaid.

Shortly after the bill was returned the prisoners were brought into court. The Common Pleas's Attorney asked that time be given in order to summon other witnesses in the case and the trial was set for this morning at 10 o'clock.

R. N. Lander, col., who represents seven of the men, stated that he thought he would be ready at the time fixed for entering the trial. Mr. John Feland, representing two of the prisoners, Charles Finch and Ed Moseley, announced ready, but asked a separate trial for his clients. This was granted and the two men will not be tried with the other seven. If Attorney Lander's clients ask for separate trials the case will necessarily be long drawn out. More than twenty witnesses were examined by the grand jury and there will probably be about fifty in all.

The thirty men summoned as petit jurors were on hand when court opened and were dismissed until this morning, with the instruction to consider themselves impaneled.

Judges C. H. Bush and Jas. Breathitt will assist in the prosecution.

### ICE HARVEST.

Many houses Filled by Farmers This Week.

The ice spell this week has been a good one and many farmers over the county succeeded in filling their ice houses. The ice gathered was from three to four inches in thickness and was clear and firm. A few houses had been partially filled a month ago.

### MANY BILLS

Are Already Being Introduced in Both Houses.

Legislature Is Getting Down To Business—Caucus Nominees Elected.

Frankfort, Ky., Jan. 7.—With Lieut. Gov. Thorne swaying the gavel in the Senate and the Hon. Eli H. Brown, Jr., performing a similar service of honor in the House, the General Assembly was formally convened at noon Tuesday in a session that promises to be one of much business. In the caucuses there were few contests. Eli H. Brown won for speaker of the House by a vote of 42 to 33 for his opponents, Newcomb and Barton. Jas. E. Stone was nominated for clerk. In the Senate Senator Allen was elected President Protem and Senator Campbell Cantrill chairman of the caucus. Henry Lawrence was made chairman of the House caucus. William Cromwell is Senate Clerk.

The Governor's message was sent in and read. The principal suggestions for legislation, as embodied in the governor's message, are these:

That the charitable institutions of the state are in need of smaller appropriations than for some years past.

That while there is in the state treasury more money than has ever before been in the treasury, yet prudence and economy are advised.

That the schools of reform be placed under a different system of operation, the governor's idea pointing being that they should be placed under the management of the state board of commissioners or some such body.

That the crowded condition of the insane asylums makes necessary an appropriation for an addition to one of the present asylums. This would be less expensive than the building of another asylum.

That the Democratic platform demand for uniform school books and for a maximum price to be fixed by statute should be put into execution in the form of a uniform school book law. The governor thinks that such a measure should and will pass at this session and that it is the most popular measure now before the people.

He suggests that the county pay half of the \$75 per capita now paid by the state for pauper idiots, believing that this would prevent carelessness on the part of county officials and would save \$150,000 to \$300,000 a year.

He urges that a sufficient amount of money should be appropriated for the erection of capitol buildings commensurate with the dignity of the state. He regards the location of the capitol as settled and believes that this is the proper time for the passage of a capitol appropriation bill.

He urges a proper appropriation to carry out the plan of the Kentucky Exhibit association for the proper representation of Kentucky at the World's fair in St. Louis.

### Bills Introduced.

Senate bill No. 1 was by Senator Farris, providing for registration in all cities to the fifth class, with certificates of registration. Other Senate bills provide for a return to the viva voce system of voting, for a uniform system of school books, for \$1,000,000 capitol appropriation, for a \$50,000 world's fair appropriation and for electrocution to succeed hanging in inflicting the death penalty.

Senator Boales has also introduced a suffrage bill, providing for a "grandfather clause," which means that illiterate voters whose ancestors were not voters prior to 1867 would be disfranchised.

nate a state librarian turned out to be a stormy meeting. A resolution to nominate the Prison Commissioner and to make the school book bill a caucus measure brought on a hot fight and Senator Cantrill refused to put the motion and declared he would quit the chair before he would be a party to what he called "a trick." A resolution by Senator Allen to proceed to the nomination of a librarian was voted down 71 to 26. Senator Cantrill then adjourned the caucus.

Senator Hickman was at once elected temporary chairman and 89 participated in the caucus that put through the program.

Miss Pauline Helm Hardin, librarian, and Geo. V. Green, prison commissioner, were re-nominated without opposition.

The rules were amended providing that a majority of the joint caucus may at any time call a caucus on the school book question. This insures the bill's passage, as the fight against it would have been made in the Senate only.

### STORE BURNED.

Farmer Merchant of Christian County Loses by Fire.

The store of William Cohn, at Fulton, burned a few nights ago. Mr. Cohn was a dealer in general merchandise and carried a large stock, which was totally destroyed. He had \$14,500 insurance. He formerly lived in this county and conducted business for several years at what was known as New Bellevue two miles north of Gray.

### CAPT. DABNEY APPOINTED

Judge Bingham has appointed Capt. John C. Dabney County Attorney in Trigg, to fill out the unexpired term of Mr. Denny P. Smith, who was recently elected Commonwealth's attorney in this judicial district.

### BANK OF CROFTON

Opens Its Doors For Business With Flattering Prospects.

The Bank of Crofton opened its doors for business Wednesday. The new banking concern is capitalized at \$15,000 and begins business with flattering prospects. Mr. A. B. Croft is president and Mr. O. A. West vice-president. Among the stockholders are several Hopkinsville business men.

Sues for \$5,000.

P. Bohn has sued J. Hummelstein for \$5,000 damages. The parties had been in business together for several months under the firm name of Hummelstein & Co. Plaintiff alleges that defendant uttered false and slanderous statements about him.

### RAY AND LEAVELL

Both Removed From Hopkinsville Asylum Places.

Dr. Milton Board Superintendent and Eli Berry, of Owensboro Steward.

Frankfort, Ky., Jan. 7.—Gov. Beckham has sent to the State Senate his appointments at the insane asylums for the coming four years for confirmation. He has decided upon, *as follows*:

Central Asylum, at Lakeland—Dr. J. G. Furnish, Superintendent; Judge Matt O'Doherty, Mr. Will H. Newman and Mr. Chas. P. Deblair, all of Louisville, as Commissioners to succeed John Barrett and Dr. T. P. Satterwhite, whose terms have expired, and Chas. F. Taylor, resigned.

Eastern Asylum, at Lexington—Dr. J. S. Redwine, Superintendent, to succeed himself.

Western Asylum, at Hopkinsville—Dr. Milton Board, of Breckinridge county, Superintendent, to succeed Dr. W. W. Ray; Eli Berry, of Owensboro, Steward, to succeed Buckner Leavell, of Hopkinsville.

State Feeble-minded Institute, at Frankfort—Dr. James W. Hill, of Nelson county, Superintendent, to succeed Dr. C. C. Owens, of Maysville; Ab. G. Rhea, of Russellville, steward, to succeed J. Morgan Chinn, resigned.

Dr. Hill has for four years past been first assistant physician at Lakeland Asylum. It is probable that Dr. C. C. Owens, the retiring official at the institution here, will succeed Dr. Hill at Lakeland.

The list of appointments sent to the Senate also contains the names of the present first physician, W. A. Lackey; Second Assistant J. W. Stephens and Third Assistant Dr. Florence Meder at the Hopkinsville Asylum, and Dr. Lewis Mulligan, First Assistant, and Dr. A. A. Bailey, Second Assistant, at the Lexington Asylum.

# WANTS LECTURE COURSE

Owensboro Starts Movement For Lyceum.

The Third Baptist church is Owensboro's greatest architectural triumph. It is an auditorium unsurpassed by any in the state. The originator or originators of its building never contemplated that it should be devoted solely to sectarian or even to church purposes. The present officers in control of the structure are quite willing that it shall be used in large part for a lyceum lecture course without any profit whatever to the church or to any individual connected with it. This is the generous offer that it is now being made to the public at the Schuster entertainment tonight. Owensboro certainly should have a good lyceum course and the Third Baptist church auditorium is an ideal place for such—Messenger.

## Don't Worry.

This is easier said than done, yet it may be of some help to consider the matter. If the case is something over which you have no control it is obvious that worrying will not help the matter in the least. On the other hand, if within your control you have only to act. When you have a cold and fear an attack of pneumonia, buy a bottle of Chamberlain's Cough Remedy, and use it judiciously and all cause for worry as to the outcome will quickly disappear. There is no danger of pneumonia when it is used. For sale by Cook & Higgins, druggists.

## President's Message.

President Roosevelt has transmitted to Congress a message in which he dealt solely with the question of an isthmian canal and the differences between Panama and Colombia as far as they involve the United States.

The peculiar cough which indicates croup, is usually well known to the mothers of croupy children. No time should be lost in the treatment of this disease. The purpose of medicine has received more universal approval than Chamberlain's Cough Remedy. Do not waste valuable time in experimenting with untried remedies, no matter how highly they may be recommended, but give this medicine as directed and all symptoms of croup will quickly disappear. For sale by Cook & Higgins, druggists.

## For Fire Protection.

The city authorities will take steps to provide more stringent regulations for fire protection in Louisville theaters. The board of safety and fire committee will meet for this purpose.

Chamberlain's Stomach and Liver Tablets are a certain cure for sick headache. If taken as soon as the first indication of the disease appears they will prevent the attack. Get a free sample at Cook & Higgins' drug store and give them a trial.

## Wood Nominated.

# GHOSTS OF ELEPHANTS.

A Superstition of the Natives of an Asiatic Region.

In a recent number of the journal of the Straits branch of the Royal Asiatic society there appears an interesting article from the pen of A. D. Machado on the supposed evil influence of ghosts. He says:

"Some years ago, when I was engaged in certain prospecting operations in the highlands of Pahang, on the borders of that state with Perak, I had occasion to make a somewhat lengthy stay at a place called Kempon, on the Tas River, one of the tributaries of the Belok, in its turn a tributary of the Jelai, the principal feeder of the Pahang river. I selected this spot because it had already been cleared of large trees and had only recently been in occupation as a Sakai settlement, from the remains of which we learned our pretensions little camp. The Sakais, however, strongly advised us to go elsewhere, alleging that this place was haunted by elephant ghosts, and that they had been the direct cause of a number of deaths, principally among their children whose remains lie buried there."

"It is necessary to explain that at the back of the place, not 50 yards away, is to be seen one of those peculiar muddy pools which animals of all kinds frequent for their saline properties, this particular one being known as the Kibang Gajah Hantu (the mud pool of the ghostly elephants). These salt lakes are also known as 'gajals' in Malay. When the Sakais refer to this place it is usually with hatred, loathing and mysterious and avowed gesture. These men declared that almost nightly elephants are seen and heard breaking twigs and branches and wallowing in this mud pool, and yet in the morning not a vestige of their spoor can be seen anywhere. Of this I am certain; the prints of deer and pigs were always plentiful and fresh, but no elephants could have been within miles of the place during my residence in that locality. My mother's wife, an oldish person, who always followed her husband in his journeys, doing the cooking for my followers, declared that the first night we slept there she and all my men heard the continued low-drawn wails, like a long woe-wo-wo, which went on without intermission until almost daylight. This noise, they said, came from those Sakai children buried there."

"This account is interesting from an ethnological standpoint, in so far as it illustrates the beliefs and superstitions of a race of very primitive people. As for the number of children dying at the time, this would only seem natural when it is remembered that an epidemic of measles was then and had been for some time raging."

## TECHNICAL EDUCATION.

Fakes Different Forms in Germany, America and England. Technical education has taken individual shapes in Germany, America and England. In Germany, says the Engineering Magazine, it combines with the practical training of the apprentice, typical of German education, an idea of research; in America it is the old fashioned general collegiate education modified by paying special attention to technical subjects with a veneering of manual training; in England today it is chaotic, but with a tendency to keep technical education on a trade basis.

As far as facilities go, Germany depends upon state aid, which has been liberally supplied; America, to a large extent, upon personal contributions; while England is in the unfortunate position of having little state aid and no large benefactions. The aim of technical education is to apply scientific discovery to practical work. When any new discovery is made in science there are two attitudes to be considered—the first is, how can I develop this discovery; the second is, how can I apply it. Germany, without neglecting the second attitude, has added to its technical instruction the first attitude—that is, the Germans combine research with application. In America it is only lately that technical education has concerned itself with research work.

# If a Good Fairy

Would only bring health to me—says many a man or woman afflicted with stomach troubles, blood disorders, or liver complaint. In many cases Dr. Pierce's Golden Medical Discovery is the good fairy which brings back good health, a strong stomach, pure blood and an active liver.

Most diseases begin with some trouble of the digestive organs or of the liver. Troubles of this nature starve the body, because they prevent it from receiving its proper supply of nourishment. Dr. Pierce's Golden Medical Discovery gives a man an appetite and a good digestion. Its great work is upon the stomach, large intestines and liver. These are the organs that nourish a man's body. This medicine makes them strong, vigorous and healthy. It fills the blood with the nourishment that builds new, solid and healthy flesh, muscle and nerves.

# \$3,000 Forfeit!

Will be cheerfully paid in lawful money of the United States, by the undersigned, proprietors of Dr. Pierce's Golden Medical Discovery, if they cannot show the original signature of the individual volunteering the testimonial published below, and also of every testimonial among the thousands which they are constantly publishing attesting the superior curative properties of their several medicines, and thus proving the genuineness and reliability of all the multitude of testimonials volunteered by grateful people, in their behalf.

Here is the experience of only one among many:

DEAR Sir—A year ago I was troubled with dyspepsia; thought at the time that I had heart trouble and was expecting to die almost any minute. I made up my mind to write to Dr. R. V. Pierce, which I did, and received a prompt reply, advising me to take his "Golden Medical Discovery." I took six bottles, and can truthfully say that I have neither heart trouble, nor dyspepsia now. I would advise all who are suffering from either trouble to write to Dr. Pierce at once. You have my permission to publish this letter wherever you wish. Thanking you for your kindness, I am, Very respectfully yours, MRS. LOIS HOOPER, Red Bluff, Norris P. O., Mont.

## OUR WHITE SALE.

Foresight is a fine thing when it hits right and this time it hit right. Nearly a year ago the cotton situation looked so plain that we thought it wise to place all our orders on White Goods for a year in advance, and we happened to hit it right. We can sell our entire stock of white goods back to the manufacturer at a good profit, but we prefer to turn it over to our customers with our usual small profit. We give below a few items from our immense stock to give you a slight idea of what you may expect when you come to this sale:

India Linens, Mill Ends, worth 15 to 25c, at 7 1-2 to 12 1-2c.	Checked Nainsook, worth 20c, at 12 1-2. Fine 45 inch French Linen, worth 40c, at 25c.	Persian Lawn, worth 30c, at 20c. ## STUCK

On Heating Stoves

I am stuck on Heating Stoves and want to get my money out of them to put in spring and summer goods. We all make mistakes and it is evident that I either bought too many stoves or did not have enough customers to use them to; and I am getting rid of them if I can sell them below cost. If you are in need of a stove, it will pay you to see me. If you don't need one you are not the man I want to see.

Very respectfully,

## ANALYSIS OF THE PEEPAGE.

English Publication Puts Aristocracy on Very Low Plane.

"Progress is revolution in disguise and by degrees," a well-known story has recently said; "it is destined to make the poor powerless and the poor prosperous." The description will remind many of the phrase uttered by Cromwell: "There will never be a good time in England till we have done with the lords."

What, asks Loudon Truth, is the value of our peepage of to-day? Lord Beaconsfield answered the question in "Coningsby" many years ago:

"Ancient lineage," said Mr. Milbank, "I never heard of a peer with an ancient lineage. The real old families of the country are to be found among the peasantry. The gentry, too, may lay some claims to old blood. I can point you out Saxon families in this country who can trace their pedigrees beyond the conquest; I know of some Norman gentlemen whose fathers undoubtedly came over with the Conqueror. But a peer with an ancient lineage is to me quite a novelty. No, no; the 30 years' wars of the roses freed us from these gentlemen. I take it, after the battle of Tewkesbury, a Norman baron was thrust as sure a being in England as a wolf is now."

"I have always understood," said Coningsby, "that our peepage was the finest in Europe."

"From themselves," said Milbank, and the heralds they pay to paint their carriages. But I go to facts. When Henry VII. called his first parliament there were only 29 temporal peers to be found, and even some of them took their seats illegally, for they had been attainted. Of these 29 not five remain; and they, as the Howards, for instance, are not Norman nobility. We owe the English peepage to three sources—the spoliation of the church, the open and flagrant sale of honors by the elder Stuarts, and the borough-mongering of our own times. Those are the three main sources of the existing peepage of England, and in my opinion disgraceful ones."

## FEEDING THE TROOPS.

Soldiers Were Dissatisfied But Cook Did Not Complain.

Gen. Chaffee, during the late military maneuvers in Maine, went around the camp inspecting things privately, says the Boston Post.

"I say," he queried of a mournful-looking sentry at Fort Levett one foggy morning, "how are they feeding you?"

"Pretty poor, I can tell you," grumbled the sentry, who belonged to a Maine national guard regiment.

"You don't really mean that?" inquired the general, solicitously.

"Why, what are they giving you?"

"Wal," drawled the downcast soldier, sadly, "the other mornin' they served us a ration of prunes. There is 40 on us and we just counted them prunes—there was 38."

"The 'dunce you say!" exclaimed the general, with apparent surprise. "Why, that's more than two prunes apiece. That's luxury!" With this he departed chuckling merrily.

Later he climbed into a shack where a dandy was cooking the rations of a company.

"Morning, cook," he said, pleasantly. "How do you like cooking?"

"Do you men treat you nice?"

"Pretty good, sah," murmured the astonished dandy.

"Don't complain of the food or swear at you?"

"No, sah," was the deferential answer.

"I tell you what it is, you must be a boss cook; that's the reason."

"No, sah," was the smooth reply. "Fact is, I just come, sir; they run the last cook out of camp this mornin', sah."

## ANSWER IT HONESTLY.

Are the Statements of Hopkinsville Citizens Not More Reliable Than Those of Utter Strangers?

It is fraught with interest to Hopkinsville.

It permits of only one answer. It cannot be evaded or ignored.

A citizen's statement is reliable.

An utter stranger's doubtful.

Home proof is the best proof.

J. H. Bell, Sr., retired farmer, living at 121 East 7th St., says:

"I have been so much a sufferer from kidney trouble that for a long time past I had been most anxious to find something that would offer me even the slightest degree of relief. The principal symptoms of my trouble were a constant dull aching in the small of my back and a distressing irregularity of the kidney secretions. Reading of Dr. Kane's Kidney Pills, and hearing them highly spoken of, I went to a homeopathic drug store and got a box. I used them according to directions and noticed beneficial results from the first few doses. My health has been vastly improved. I also gladly recommend Dr. Kane's Kidney Pills, which I used for itching hemorrhoids, which proved to be a great remedy for that exacting ailment. Remember, I am not a doctor, but a patient."

## FORCE IS THE NATION'S LAW.

It is to Determine the Possession of the Prizes of Nature.

Among nations there is but one way in which the possession of the prizes of nature can be determined, and that is by force, says Brooks Adams in the Atlantic. Arbitration can only serve where strength is equally balanced, and the matter in dispute is not worth the price of the conflict. So far as we now know the district in which iron can be produced cheapest and in unlimited volume is Northern China. Russia is, at present, massing several hundred thousand men in Eastern Asia preparatory to an attempt to crush Japan and absorb this region. Each nation can judge for himself what attitude befits the United States in this emergency.

Furthermore, as industries acquire momentum the necessity for a vent grows imperative. Germany feels this necessity. Germany and Russia form together an overland economic system stretching from the Pacific to the South sea. In the main the interests of the two empires are identical. Meeting in central Europe, the adjoining ends of these empires are fixed, but the Russia expands toward Peking and Germany seeks to enter South America. But South America is the last continent at once rich, vacant, in the path of exchanges and accessible. Also South America is the only certain vent for our surplus in the future, as Asia is the only certain base from whence we can draw raw material. Should Russia absorb northern China, and by means of German capital and talent establish an industrial center there, and should Germany occupy South America and develop it, with Chinese steel, the overland economic system would girdle the world and the United States would suffocate. Both base and vent would be closed.

## DIXIE FLYERS

Being Operated For Chicago—St. Augustine Travel.

Fastest as Well as Most Expensive Trains Ever Operated Out of Chicago.

The Dixie Flyers, or limited vestibuled trains between Chicago and St. Augustine, Fla., were put into operation this week.

There are two of these Dixie flyers, one of them being made by the Moon Route and the Southern Railway. The other limited train is contributed to by the Chicago & Eastern Illinois, the Evansville & Terre Haute, the Louisville & Nashville, Chattanooga & St. Louis, the Central of Georgia and the Atlantic Coast Line. Of the two lines, the latter is said to be shorter by a few miles, its total distance between Chicago and St. Augustine being 1,135 miles.

This service is continued for ninety days, being almost entirely for the accommodation of the tourists traveling between the North or Northwest and the South. During these three months it stands as the latest train operated in the United States, its average rate of travel being fifty miles per hour. The operation of the latter train is reduced to the nearest possible approach to perfection in railroading. It is so arranged that the fewest possible stops are made, and these only at places where it would be necessary anyway for the engine to take on water.

It is the most spectacular and picturesque of all the trains. The start is from ice-bound Chicago, the rush over the prairies of Illinois, the sweep through the belated cornfields of Indiana, on to the more temperate blue grass sections of Kentucky, to the fertile and grandly rugged valleys and mountains of Tennessee, through the majestic pine forests of Georgia and finally to the palm groves and flowers of Florida. It is the journey of a day from the region of ice to a realm of everlasting summer.

Beside this, it is probably the most expensive train that is operated in this country. It is all luxury and convenience, and as such caters principally to the patronage of the wealthy. Only the holders of first class tickets and sleeping car checks ride on these Dixie Flyers.

All of the cars belong to the Pullman Company and as a practical rental cost per train for each trip is \$170.25 and the cost of each train per month \$5,107.50, this being paid to the Pullman Company for the use of the cars. To operate this train one month fourteen engines are required, representing a cost of \$12,600 per month, with supplies, coal, etc., included. Fourteen each of engineers with a salary of \$2,450, firemen with salary of \$1,330, conductors \$1,540, baggage masters \$840, flagmen \$700 and train porters \$420 are required for the month's operation of a train. Also four dining car conductors at \$280 salary, twelve cooks \$600, eight waiters \$200, and sixteen waiters \$480 are utilized. The cost of cleaning, inspecting, etc., for the month will reach \$1,300. This shows a total cost per month of \$22,840. The trains are made up of four baggage and composite cars, sixteen drawing room sleepers and four dining cars, making twenty-four Pullmans in all.

One of the greatest expenses of this limited train is the dining car service. It is not expected that a profit will be made, in fact it is claimed that a dining car loses only \$500 per month, the lines operated as a convenience only to the patrons, and it is never anticipated that it will be other than an expense.

Mrs. Johanna Soderholm, of Ferguson Falls, Minn., filed and dislocated her shoulder. She had a surgeon cut it back in place as soon as possible, but it was quite sore and pained her very much. Her son mentioned that he had seen Cham's Berlin's Pain Balm advertised for sprains and soreness, and she asked him to buy her a bottle of it, which he did. It quickly relieved her and enabled her to sleep which she had not done for several days. The son was so much pleased with the relief it gave his mother that he has since recommended it to others. ## OPERA HOUSE TO-NIGHT.

Fun and Enjoyment From Start to Finish.

Barlow and Wilson's minstrels always meet with a royal reception when they visit Hopkinsville. Their orchestra is first-class and their singing the best. It is fun and enjoyment from start to finish, nothing drags, and the audience is always highly pleased with their efforts.

The Salt Lake Daily Deseret News has the following to say concerning their recent appearance in that city:

"Conroy and Murry are the hottest dancers in the country. They are with Barlow and Wilson's Minstrels."

Barlow and Wilson's Minstrels, which appeared here last night, opens a new era in minstrelsy. The performance was devoid of boisterousness, and the usual rough and uncouth language, which is common with some of the so claimed first-class companies; yet the vivid portrayal of the unique attributes and the violent humor of the genuine darkey, was charming in the extreme. The vocal numbers were all given in a manner that took while the orchestra was all that was claimed for it. Barlow and Wilson's Minstrels always had a cordial welcome awaiting them here.

This grand aggregation of min-

strelsy will hold the boards at the opera house to night. Seats on sale at Postal Telegraph Office.

## The Spirit of Winter.

The spirit of winter is with us, making its presence known in many different ways—sometimes by cheery sunshine and glistening snows, and sometimes by driving winds and blinding storms. To many people it seems to take a delight in making bad things worse, for rheumatism twinges harder, twinges sharper, catarrh becomes more annoying, and the many symptoms of scrofula are developed and aggravated. There is not much poetry in this, but there is truth, and it is a wonder that more people don't get rid of those ailments. The medicine that cures them—Hood's Sarsaparilla—is easy obtained and there is abundant proof that its cures are radical and permanent.

## A VENERABLE PASTOR CURED BY PE-RU-NA.

Pe-ru-na is a Catarrhal Tonic Especially Adapted to the Declining Powers of Old Age.

In old age the mucous membrane becomes thickened and partly loses its function.

This leads to partial loss of hearing, smell and taste, as well as digestive disturbances.

Pe-ru-na corrects all this by its specific operation on all the mucous membranes of the body.

One bottle will convince anyone. Once used and Pe-ru-na becomes a life-long standby with old and young.

Rev. J. N. Parker.

Strong and Vigorous at the Age of Eighty-eight.

Rev. J. N. Parker, Utica, N. Y., writes: "In June, 1901, I lost my sense of hearing entirely. My hearing had been somewhat impaired for several years, but not so much affected but that I could hold converse with my friends; but in June, 1901, my sense of hearing left me so that I could hear no sound whatever. I was also troubled with rheumatic pains in my limbs. I commenced taking Pe-ru-na and now my hearing is restored as good as it was prior to June, 1901. My rheumatic pains are all gone. I cannot speak too highly of Pe-ru-na, and now

when 88 years old can say it has invigorated my whole system. I cannot but think, dear Doctor, that you must feel very thankful to the all-loving Father that you have been permitted to live, and by your skill be such a blessing as you have been to suffering humanity!" —Rev. J. N. Parker.

## A Bishop's Letter.

M. E. Lomax, D. D., Bishop 2nd Dist. A. M. E., of Charlotte, N. C., writes: "I recommend your Pe-ru-na to all who want a strengthening tonic and a very effective remedy for all catarrhal complaints." —T. H. Lomax. If you do not derive prompt and satisfactory results from the use of Pe-ru-na, write at once to Dr. Hartman, giving full statement of your case, and he will be pleased to give you his valuable advice gratis. London society folks' devotion

to lavender water as a perfume

is increasing rather than falling

off, and in consequence the culti-

which it is distilled is becoming

more and more general through-

out the country. This delicate

women of the English and French

centuries hundreds of years ago, but

recently, owing to its present popu-

larity with the fashionable world

dances from the time, not a great

while back, when Queen Victoria,

having become acquainted with

lavender water under rather pic-

turesque circumstances, fell in

love with it, says an exchange.

A century ago the perfume was

## ANOTHER PROPHET

Gives Weather Forecasts For Month of January.

Marsh Predicts Tempestuous Times, With Severe Cold Weather.

Marsh, the Winter Haven, Ohio, weather prophet, figures out January weather as follows: The month of January will be a tempestuous one, with severe cold weather, blizzards and heavy snow storms covering the greater portion of the country. The precipitation during the month will consist principally of heavy snow, not much rainfall, except over the Southern and Gulf States.

Between 1st and 7th cold wave, cold weather covering the entire country, with much snow.

Between 8th and 13th another cold wave, preceded by snowstorms, mercury will drop to zero in Southern States and from twenty to thirty below north of the Ohio river.

Between 14th and 21st changeable temperature will prevail over the entire country, from mild to severe cold waves. Heavy rain will fall generally in Florida, with severe storms and cyclonic winds along the Florida coast, followed by cold wave.

Between 22nd and 24th cloudy, unsettled weather will prevail generally.

Between 24th and 29th the East will be storm swept. Heavy snow fall over Kentucky, Tennessee and other adjoining States.

The month will end with generally fair and cold weather over the whole country.

## THE RISKS THEY TAKE.

Men Who Work on the Big Sky-scraper Buildings.

It frequently happens that when you pass a new skyscraper that is going up, says the Philadelphia Ledger, you see a number of working men astride an iron girder, being lifted by a derrick to the eighth, tenth or even the twentieth story of the building. High up in the air there are men driving rivets, and at the same time, balancing themselves on a footing two miles wide, men, hundreds of feet above the street, holding on to supports with one hand, push, pull and drag the heavy iron beams into their places. It looks as if working men's children should be taught tight rope walking and acrobatic turns if they are to follow a profession their fathers. A contractor said regarding the great danger to the workmen in putting up modern buildings, that two or three years ago it was a difficult matter to obtain men who were willing to run the risk involved. "But now," he continued, "so many men have become expert in balancing themselves and taking with ease the dangerous positions required in the work that we can get all we need. Some of their pride themselves on their experience in these assignments, and I know several firemen who would even offer to work on a three-story house. You would be surprised at the affection the makers of tall buildings have for the structures when they are finished. Their part in the putting up of edifices so gigantic and so imposing gives them a sort of proprietary interest in the places all their lives. I helped to build that office building," they say to their friends when they pass it. "I put all the rivets in the girders on the tenth story." Sometimes the men ask permission to bring their wives and children on a Sunday to take them through the building before it is occupied, so that they can show them what part they have worked on. The family is always pleased and full of admiration for their father's skill."

## DEADLY CELLULOID COMB.

Manufactured from Slight Modification of Gun Cotton.

Attention to the dangers attending the use of celluloid toilet articles is again called by a contributor to the Medical Press and Circular. He writes as follows:

"It has long been known that dressing combs and other articles of like nature have been manufactured from a modification of gun cotton. From time to time we have pointed out the possibility of accident from the use of an article containing such an ingredient, but comparatively few cases of accident have hitherto been recorded. Now it appears that the original patent having expired, a vast number of imitation processes have sprung up and the public are flooded with combs made from gun cotton compounds by methods which render them more dangerous than those prepared under the original patent. That some restriction should be placed on its indiscriminate use was proved by the recent case of a girl, 22 years of age, who was suffering from cellulitis of the scalp, accompanied by a marked degree of nervous shock. It appeared that her head had been set on fire by the sudden combustion of a comb which she wore in her hair. Sunday, she happened to bend down before the fire, when the comb suddenly ignited, and she became enveloped in flames. Her life was only spared through the prompt action of her father, who immediately enveloped her in a blanket rug, and so extinguished the conflagration. Obviously, seeing that the mere storage of gun cotton is restricted by heavy penalties, it is not fair or safe that makers should be permitted to place a slightly modified but actively dangerous modification on the market, to be used by a section of the public who have not the slightest notion of its composition and dangers."

Diamonds and Pearls.

"Diamonds," says a jeweler expert, "look best when they are in a setting, whilst pearls glimmer in effect from being worn actually upon the skin. But it is an indisputable fact that some skins tarnish good turquoise."
